SOAPBOX : I had fun, despite personal attacks by N6TV. Perhaps an explanation is in order. For the first time, I used the CT "DEFINEKEY" option that Bob told us about to make my CQ'ing and logging easier. I was starting to get used to it on Saturday, when I got a request to QSY to 160m from N6TV! I tried to respond using the "ALT-K" feature, but, of course, every time I'd hit a comma or period, I'd start CQ'ing or sending an exchange. Besides that, I don't have an antenna of any sort for 160. No matter, I'll use the HF2V. I worked Bob with a couple of watts, then returned to find (of course) that my frequency had been taken. Later, I was called on 80 and asked to QSY to 40 by... N6TV. I told him (taking care not to use any punctuation!) "not now." Well, my run (OK, so it was a brisk walk at best) proceeded to die after a few more QSO's. How did Bob cause that!? He came back and asked "now?" "OK. What freq?" (CQ's and exchanges automatically interspersed with my response.) I moved to 40 and worked him, found a spot of my own, worked a few more, and then went to bed. What I learned. "There's no meters like 10 meters (N5KO)" and the next time I remap my keyboard, I'll keep my paddle closer to hand!

K6GT

This was a mini dxpedition by AE6Y and AA6VB to the Yukon to put VY1 on the air. Operation was from the Yukon Amateur Radio Assn. Club station, using AE6Y's rig, AA6VB's computer, and VY1JA's amp. We had a great time overall, but were hampered by aurora that wiped out 80 completely and made 40 almost unusable. Ten was barely open on Saturday, but did nicely for us on Sunday. Three things California stations could do to make the contest more enjoyable for guys in the far North: occasionally turn your beams that way, use more CW, and answer more CQ's (ours were answered almost exclusively by little guns).

Good guy award goes to N6BT, Tom, for driving all the way up to Sierra County after repeated importunings to put that rare one on the air (he gave us #1 from Sierra.) Many thanks for the hospitality of VY1JA and the YARA (especially VY1RM, its president).

AE6Y @ VY1DX

Congratulations to you and the NCCC, that the 1999 CQP was so enjoyable. It's too bad I hadn't been able to clear the slate of some other

commitments to put in a full time entry, but I enjoyed the hours I had.

VE3XN
