

## California QSO Party: 2018 County Rareness Data

- Based on 2018 CQP logs received from outside of CA.
- 12 county sweeps were achieved in the 2018 CQP by stations outside of CA. There were impressive efforts by CA stations in all 58 counties which allowed these sweeps to occur. County multiplier totals increased substantially in 2018 compared with 2017. Many thanks to everyone in CQP 2018.
- This list is intended to provide a data based guide for California participants to evaluate which counties they should consider activating for CQP 2019.

CA County	2018 Rareness Rank	# of 2018 non-CA stations that submitted a log and contacted this county
