Mutual Support: CQP<->7QP

- The CODXC runs the 7th call area QSO party, 7QP. For it to be successful, we need to get as many counties and operators on the air as possible. We can do it for all of Oregon with a lot of work by our mobiles and county expeditions. The other 7th area states are more or less successful for various reasons. The Northern California Contest Club who runs the California QSO party has the same problem. For the past 20 years we have helped them by activating Modoc County. We are often the only entry from Modoc. It's so rare that we are a multiplier for almost every station we work. In turn, two teams of NCCC ops go to outback places in NV and AZ for our 7QP.

K6M -- 2018 Equipment

- Antennas: TH3 on 50' tower trailer, TH3jr on 20' mast, 80m inV, 2el 40m inV, 160m long wire.
